Medical Duniya — NEET PG Rank Predictor

Accurate **NEET PG rank prediction** to help aspirants estimate outcomes, shortlist colleges, and plan counselling strategies before official results.

Made with GAMMA

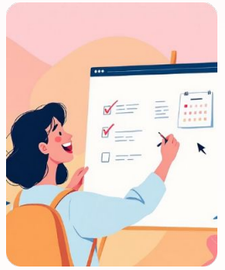
Why a Rank Predictor Matters

Estimate Your Score

Predict expected rank from your performance and historical trends.

Shortlist Colleges

Narrow down institutions likely to be within reach based on predicted rank.

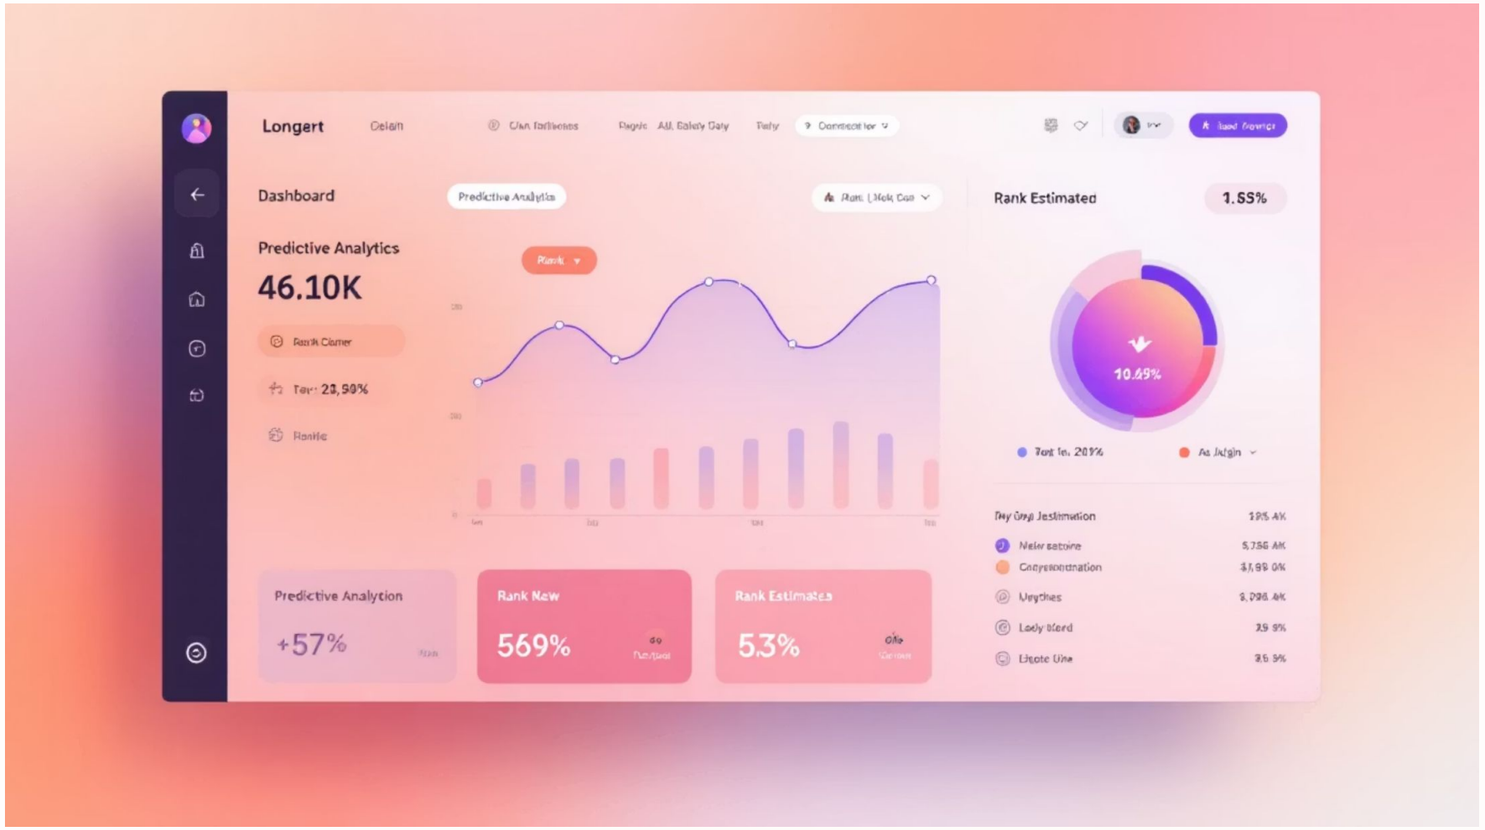


Plan Counselling

Develop effective counselling strategies ahead of official results.

Made with GAMMA

Core Features



Historical Trends

Uses previous years' data to improve accuracy.

Performance-Based Estimates

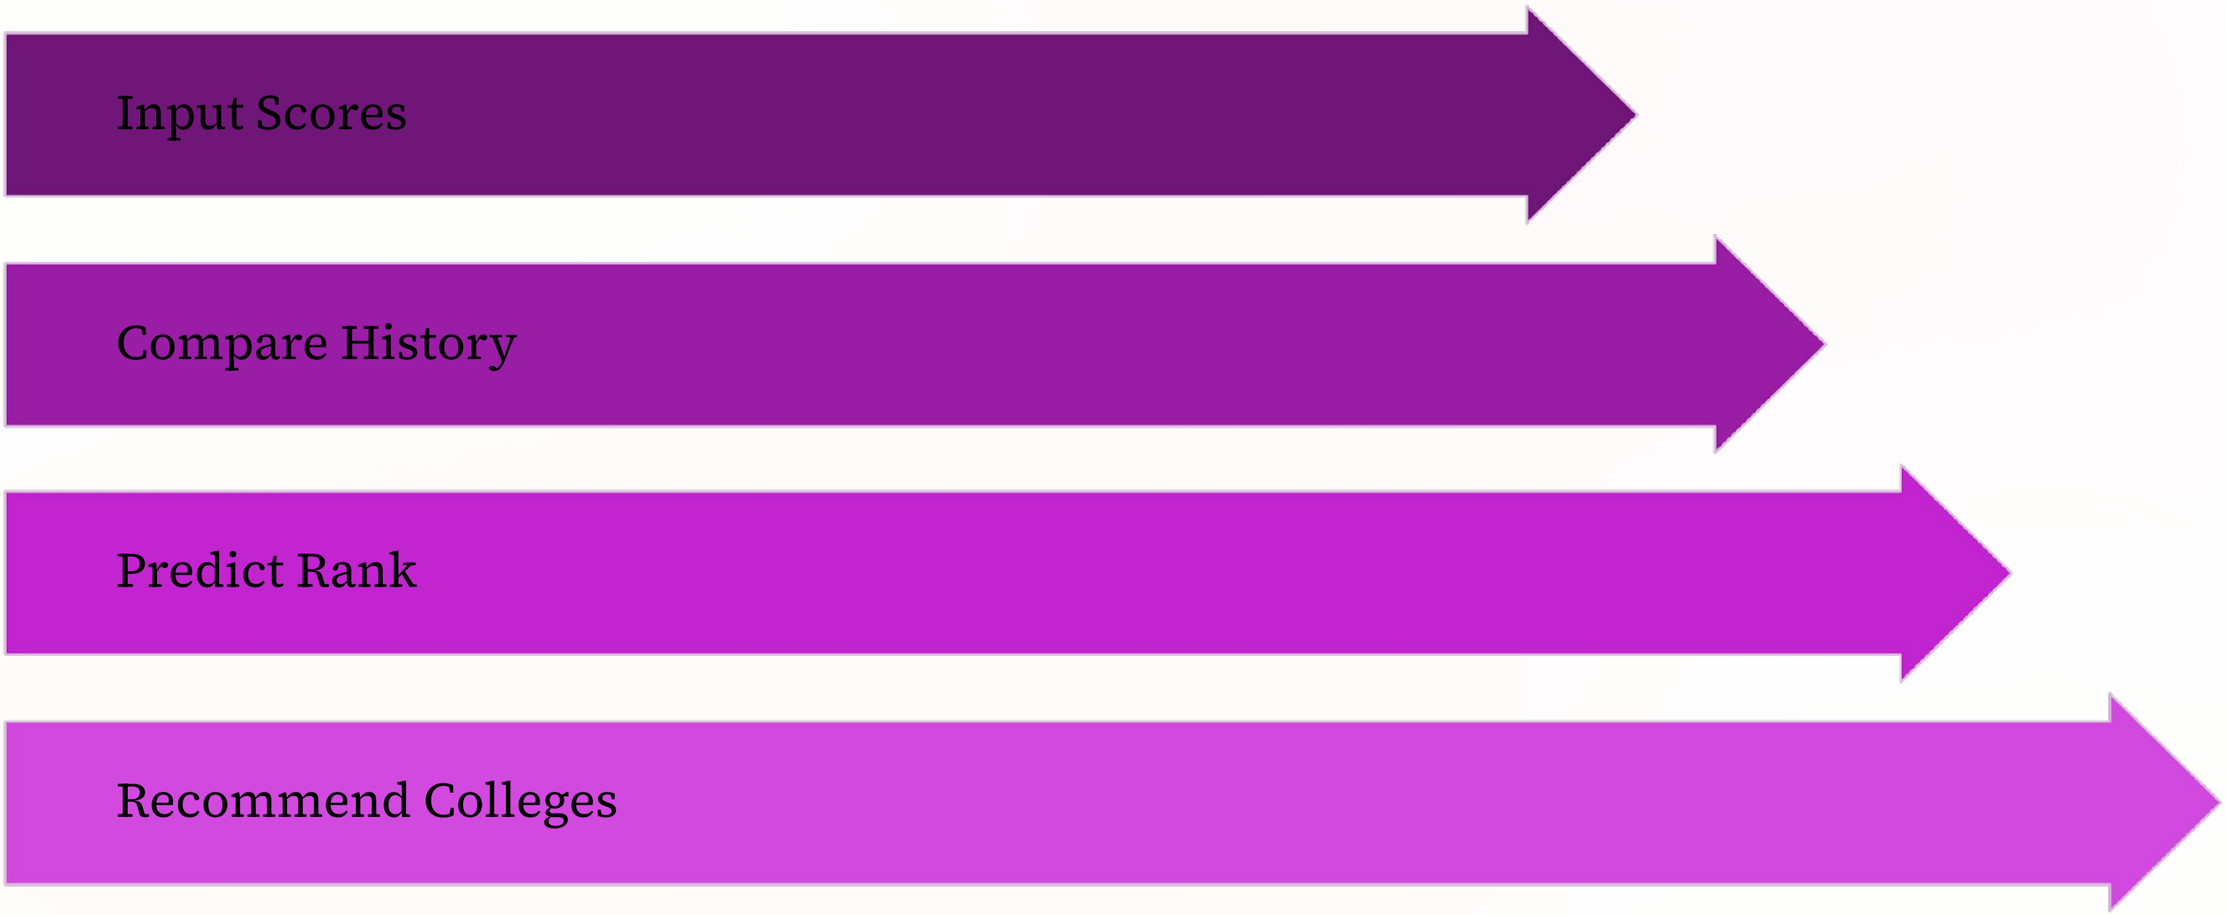
Calculates rank from user's exam performance metrics.

College Matching

Suggests institutions aligned with predicted rank and preferences.

Made with GAMMA

How It Works



The predictor ingests your scores and preferences, analyzes historical patterns, outputs an estimated rank, and recommends targeted counselling actions.

Made with GAMMA

Typical User Journey

Enter Scores

Provide NEET PG marks and category details.

Review Prediction

See estimated rank and confidence based on trends.

Shortlist Colleges

Get a prioritized list of colleges matching your rank.

Prepare Counselling

Plan choices and documents ahead of counselling sessions.

Made with GAMMA

Accuracy & Limitations

Predictions use historical trends and individual performance to estimate likely ranks. They are guidance — not official results. Final admissions depend on official scores, category rules, and seat availability.

Security & Privacy

Personal data entered for prediction is handled with care. Only necessary details are used to generate estimates. Users should verify privacy practices before sharing sensitive information.
